TODAY'S **BIG** MONEY MAKER

Don't get us wrong. The operation of automatic phonographs is no get-rich-quick business. It's a legitimate business paying a normal profit—but—there IS a marked difference in the earning power of one model phonograph as against another.

If you want to lock a location's doors to competition, make yourself the fair-haired boy with the location owner — take in more money than any previous instrument ever produced for you, just move in a Modernized Wurlitzer. Patrons can't keep their eyes off it or their nickels, dimes and quarters out of it.

Mechanical selectors make Modernized Wurlitzers as easy to service as they are to look at. Want to see action? See your Wurlitzer Distributor about converting Wurlitzer Models 24, 500, 600, 700 or 800 into big-money-making Modernized Wurlitzers. The Rudolph Wurlitzer* Company, North Tonawanda, New York.

"The Coin Machines Merry-Go-Round" by Bill Gersh

SPRING, 1945

OPTIMISM

Spring always brings with it optimism and a warm belief in the future.

This Spring of 1945, tho another war season, greets this industry with much to be optimistic about. This industry has always been, and will probably always continue to be, among the most optimistic of all the industries in this nation.

Regardless of wartime restrictions this industry continues to rapturously look forward to peacetime when this trade will see its greatest growth.

The burning crucible of war has purged this industry. What remains will gain greatness. This remainder has proven to itself, as well as to others, that it is an integral and important part of the great American entertainment and merchandising scenes.

EQUIPMENT

The machines of this industry have a unique value all their own. The nation at large realizes that the machines of this industry helped to build and maintain morale. And did so economically.

This field has won over many good business men. Among these are many conservative financiers. Coin operated machines proved to be a profitable business when correctly handled by specialists.

MUSIC

The music division of this industry has won itself a high place among the leading music fields. The country wants this coin operated music industry to continue to grow.

The average location owner has come to accept coin operated music as an integral and necessary part of his business. Those few spots which believed that coin operated music was beneath the dignity of their clientele, have changed their views in this regard.

The music machines field is sure to be among the very first to grow rapidly in the post-war period. This is one field that is eager to get its post-war plans into action.

VENDERS

The merchandise vending machines of this industry won great respect from all the nation during this war period. The service they did, and are continuing to render the public at large, during this manpower scarcity, has created a new concept of their value.

There is a boom already getting under way in this field. This will surely place merchandising equipment far above whatever high spot it ever formerly occupied. This field may bring this industry its most outstanding and amazing developments.

SERVICE

The service machines field, still led by the weighing scales, also proved itself profitable during this wartime period. Scales have developed into a highly specialized business.

Those who are engaged in the service machines division of this business eagerly seek new equipment. They all desire to expand and enlarge their present operations.

ARCADES

Th arcade business naturally opens with the Spring season. It begins its buying at this time of the year and continues on until all the vacation spots are in full action.

The arcade business, too, proved itself during this war-time period. There are many coinmen today, all over the nation, who will continue to be arcade owners, regardless of what else they may tackle when peace arrives.

AMUSEMENT

There is no need to give great discussion to the amusement machines division of this industry and its unusual accomplishments during this wartime period. This is well known to all in the trade. Amusement machines, by their very numbers alone, continue to lead the field.

They have won a tremendous following. They have attracted the attention of the armed services and many of these were purchased for entertainment of the troops.

In the post-war era amusement machines will once again, by their novelty, their unique and economical entertainment, as well as their very numbers and dominance in all locations, maintain the leading interest of the trade.

WAR

In short, every division of the coin operated machines industry begins to feel the warming influence of Spring. All loosen up with the need for replacement, for buying, and for selling of equipment.

This being a wartime Spring, the field cannot as yet fully open. No new equipment will be seen. But this is not hampering the continued growth and development of this industry. Nor is it beclouding the vision of what tomorrow will bring.

This Spring of 1945, more than any other Spring season since war began, gives promise of an end to this bloody conflict. Therefore this Spring season brings more optimism to this industry.

EXPANSION

Many are already completing plans for their first moves when this war ends. Some have even gone to the extent of already starting some of their plans into action.

Some are already rebuilding their quarters. Others have taken on new leases. Some intend to, and already are, constructing their own buildings. Many have arranged for larger routes. Others have, in turn, rid themselves of routes to give their time completely to other divisions of this field.

The trade has come to realize that much must be done. And done just as soon as possible to assure itself that no obstacles will remain in its path for the post-war period.

“The Coin Machines Merry-Go-Round”

Page 2

TAX COUNCIL

There is today a great and growing demand thruout the trade for the creation of a National Tax Council. Many leading figures in this industry have come forth to encourage the creation of such a body for this industry. A National Tax Council is sure to become fact. And perhaps even before peace arrives.

CREDIT BUREAU

A National Coin Machines Credit Bureau will one of these days also come into being. At the present time, with most in this industry financially capable of handling deals without resort to credit arrangements, this plan has somewhat dimmed in importance.

It is sure to return as new equipment again begins to be manufactured. There is then no doubt that the many who formerly approved it will once again come to the fore to assure its creation.

There always was a great need for a credit bureau in this field. This need was most noticeable as the war started. Men began to deal across the nation who had formerly never dealt beyond the confines of their own territory. A credit bureau is necessary so that financial problems will never again come up to estrange men in this business.

PUBLIC RELATIONS

The need for a Public Relations Bureau is agreed to most definitely and even fervently by all in the trade. Such a bureau can withhold evil publicity which is constantly attacking this business.

It can educate the public to the fact that this business is no different from any other means men adopt to earn a livelihood. That this is not an evil industry. That it desires most earnestly to go ahead and to reach the heights which other businesses have reached.

This industry should be better explained to the public, the press and all business men, as well as to crusaders, politicians and blue-noses. A Public Relations Bureau will most definitely be needed when this industry once again reopens its arms to accept new men with new investments to make it greater than it ever has been before.

DISTRIBUTORS' FORUM

The idea for a National Distributors' Forum is beginning to take hold of the wholesalers in this business. The trade has come to realize that with its wholesale division a strong and unified body it is bound to have a more solid basis on which to build.

The wholesalers, meeting among themselves, creating rules and regulations for their own recognition, and at the same time instituting a code of ethics and policy, will gain this division of the industry much greater respect. This is admitted to be a great need by the present wholesalers themselves.

A National Distributors' Forum should become a fact as soon as is possible. Such a forum can more rapidly help this entire industry to post-war greatness. Leading wholesalers, from everywhere in the nation, have written to The Cash Box that regardless of how many will attend the first meeting, a meeting should be called.

DRIFTING

Most serious, and therefore all important to the trade, is the fact that slowly but surely each division of this industry is beginning to drift apart. Unless the industry holds together it will be weakened to a point where none of its individual divisions will be able to benefit by concerted and strong effort of numbers and finance.

The coin operated music machines man is today of the belief that his business remotes him from the amusement machines man. Yet a great many who are engaged with amusement equipment are also music men.

These music men are beginning to drift away from the other divisions of this trade. This breaks up the numerical and financial strength which is only possible by the coalition of all groups into a single unit.

The merchandise machines men are also drifting apart from both the music and amusement fields. It may be their belief that their division does not coincide for closer contact with these other groups. Unity, and thereby great strength, is only possible with complete collaboration of all members of this coin operated machines industry.

BOARD OF TRADE

What is therefore needed, and what The Cash Box has urged almost from its very first issue, is a National Coin Machines Board of Trade wherein all these divisions of this business would have a common meeting ground. Regardless of their individual beliefs and sentiments this industry should maintain its numerical strength.

The symbol of this industry is the coin chute. The one integral part of all this business regardless whether it is a cigarette machine, beverage vender, scale, slot machine, phonograph, or any other device — it must have that coin chute. And if it has a coin chute — then it should be a part of a National Coin Machines Board of Trade.

All associations now existent, all manufacturers, distributors, jobbers and operators, all that are engaged in this business, or are allied to it in any fashion whatsoever, should be members of a National Coin Machines Board of Trade. Such an organization should be the common meeting ground for all the membership of this industry.

TEMPORARY RESTRICTIONS

All these organizations, so far outlined, are needed by this industry. And all this is more keenly felt as the warm Spring of 1945 comes into being.

The wartime restrictions which have been endured by all in this business; the gas and tire rationing, the lack of manpower and materials, the new midnight closing curfew, the many other restrictions too numerous to mention, all are but temporary.

There has been a rapid growth of ever greater taxation all over the nation. Much territory has closed. Likewise, territory has opened. Revamping of machines has become big business. The lack of machines is keenly felt. The need for new equipment grows greater every day. The jumps in prices are accepted. There is a growing fever for expansion. There is buying and selling of routes at a wholesale pace.

“The Coin Machines Merry-Go-Round”

Page 3

All this has come into being during this hectic war period. This is gradually culminating itself into a grand finale. And this finale will be the opening of production reconversion which will finish much that now seems to be so important. But, this will then make even more important the organizations listed here.

GOING AHEAD

This Spring of 1945 brings great hope to all this trade. There is an undercurrent belief that the industry is already reaching out to recapture its former greatness. Tho it is a small and highly concentrated business today, it looks to the future when it can once again spread forth and become the giant industry it should always have been.

This is all most heartening to The Cash Box because it entered into this field with youthful zest when others ran from it. It created a strong medium for exchange of national information. It traveled about the country urging the trade to continue and not to despair. It preached that this field would grow and continue to grow even during wartime.

It has, with great pleasure, seen its predictions come true. It continues on the premise that this growth is but like a pebble on a great beach compared to what the future holds in store for this industry.

Many suggestions which The Cash Box has brought to this trade are taking strong hold. This industry at last realizes that its inner affairs are its own, and not the business of outsiders. This trade has also come to the conclusion that its growth will depend in great measure on how it educates its new blood and what intelligence it brings into its ranks.

The days of quick “sucker” money are over. The prices of present used machines, and especially the prices of the new post-war equipment, are expected to be such that only financially capable and intelligent business men can be brought into the post-war picture.

INFANCY

This business is finding itself. It is beginning to have greater faith and confidence in itself. It believes in itself. It knows now that regardless of the torment and hell of war it can go ahead. It is a trade unique in the fact that it stands on the threshold of the greatest promise any industry has ever had.

Here is a business that believed it had at last come out of its swaddling clothes, out of its infancy, and was now ready to plunge ahead. This war churned it thru a crucible of fire.

This war cleaned out the unbeliever. This war purged from it that which was slag. And now this industry stands on this mighty threshold with wide and wondering eyes. Still but an infant, and with all the future as yet ahead of it.

This trade has discovered itself. It knows its future is ahead of it. This means much to every man now engaged in this business. It means that to make sure it grows properly to the greatness all want it to reach — it must be correctly guided.

It must be carefully nurtured and fed. It must become the one complete guiding policy of this industry to do itself good and to look forward to continue doing itself good by carefully watching itself and sweeping away from it those who would harm it.

TIME AND YEAR

The Spring of 1945 is tremendously important in the history of this industry. This can be the time and the year when this trade will arrange for its proper growth by the creation of such bodies of men, as outlined herein, that will enable it to proceed with greater and more assured confidence into the future.

This is the time for this industry, as the war in Europe draws to an end, to prepare for a great tomorrow. This trade should now arrange to carefully guide every step this infant industry will take into the future. Just as a baby is held, and watched, and guided in its first footsteps — so should this industry now be carefully guided as it enters into this new post-war world.

FUTURE

The industry has before it a great future. A future that is sure to fill its every desire. The membership of this industry today, tho small, is a strong nucleus, a good backbone for its future growth. These are the men who endured thru this strenuous wartime period.

These are the men who were able to stick it out and profited because they did. These are the men who had faith in this industry. Their faith is now being rewarded. Their faith will be even more rewarded if they will now engage themselves in creating the necessary organizations to make sure that this industry grows to greatness — correctly.

PARALLEL

A good parallel to this is the movie industry. Not so many years ago this was an industry in ferment. An industry losing respect each day. Until, at last, the few who remained fought hard to obtain a unifying influence, and placed at the head of that industry a nationally known figure who has helped it to rise from a “Nickelodeon” to such greatness that its power is now universal.

UNITY

This business, too, is in ferment. It is trying to get together to make sure of its future. It must once and for all dispel suspicions and greed from its mind. It must believe.

It must believe that all others engaged in this trade want to rise too. It must feel that by complete understanding, by a better knowledge of itself from among its own membership, will it rise to such level that its prestige and future greatness will be assured.

Only by unification can it today, and in the future, purge from itself any element that wishes to harm it. Only by close cooperation among its own membership can it assure itself the same success that was gained by the close cooperation of this nation with its allies in this war.

Now is the time — this Spring of 1945 — to start the wheels into motion to help make this industry greater than it has ever been. And by such greatness make each individual member of this business great, too.

"Talking Out Loud"

CURFEW LOWERS TAKE ABOUT 10% OVER NATION

Phonos Are Hardest Hit. Big Cities Suffer Most. Coinmen Believe Loss Will Level Off

NEW YORK — The effect of James F. Byrnes' midnight closing curfew began to pour into The Cash Box this past week as first collections were made from machines everywhere. The loss averaged about 10% over the nation.

It was learned that phonos were the most affected by the curfew. The big cities suffered the worst. It was believed by leading coinmen that the loss would level itself off within a few weeks and that return to normal collections could then be expected.

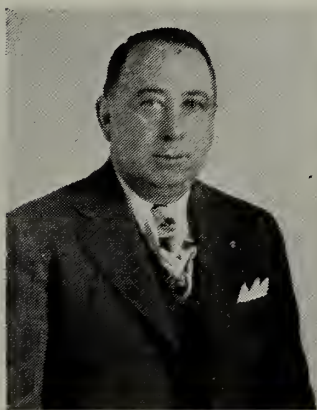

Cabarets in this city cried that they had lost over 30% take for the week. Theatres were mad. Competition between whether the general public will now patronize the theatre or a nite club is what irks both circles here.

Coinmen in the heart of Manhattan, especially the music machines men, felt the loss of take severely. Many claiming that averages were down as much as 35 per cent.

Atlantic City coinmen claimed that the take dropped over 20% in most spots. The belief is, tho, that this will come back with the rush of summer resort business.

Thruout the rest of the country, with the exception of the metropolitan centers, take held up as well as could be expected with many claiming that play was actually increasing in the early evening hours.

ERA OF PROSPERITY AHEAD FOR TRADE

C. F. (Cliff) Bailie

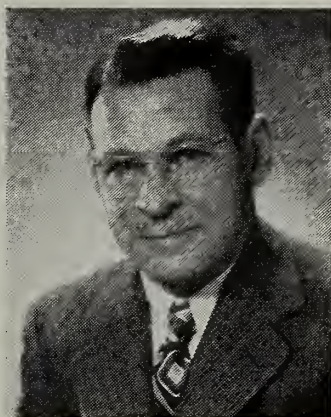

SYRACUSE, N. Y.—C. F. (Cliff) Bailie, Vice-President of Rex Manufacturing and Sales Corp., this city, issued the following to the trade this week.

"Like all good Americans the first thought in the mind of every coin machines man is, 'Are we doing everything possible to hasten V-Day and to bring the boys back home again?'"

"His next thought is, 'What does the post-war future of the coin machines industry hold for me and how will my personal business be affected?'"

"The answer is that every member of this business is going to enjoy an era of prosperity that was never heretofore dreamed of. Our millions of service men have become coin machine minded and

INDUSTRY CAN BE PROUD OF WAR RECORD

David C. Rockola

CHICAGO — David C. Rockola, President of Rock-Ola Manufacturing Corp., this city, issued the following statement this week.

"The coin machines industry can be proud of its war record, and the outstanding accomplishments in the manufacture of the variety of articles that the industry has produced.

"The coin machines industry has produced items from the most delicate instruments, Carbine rifles, intricate aircraft engine parts, ammunition, radar, and many other parts which cover every branch of the service. The Government has not been hesitant in recognizing these outstanding achievements.

"The industry can also be proud of its pre-war equipment. From our own experiences, products of the industry built prior to war, now in the hands of the operators, are standing the severest tests of durability in the field.

"We can confidently look forward to a production program of products engineered on a precision basis that will advance the ideas of all types of coin machines far beyond the dreams of the pioneers of this industry.

"New ideas, improvements, expansion, further the program of the industry to a point where the post-war period holds a bright and prosperous future."

ARKANSAS TAX BILLS

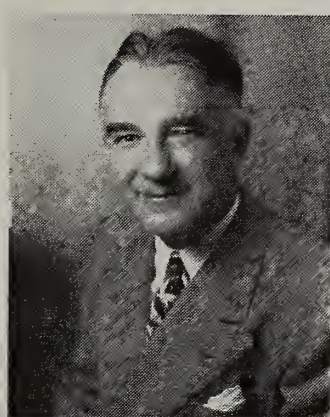

LITTLE ROCK, ARK.—Flash report just received to the effect that the tax bills here asking for 33⅓ percent of the gross take from phonos and amusement games have been killed in committee.

they have long enjoyed playing machines in camps and post exchanges. Upon their return play will greatly increase in every location.

"The manufacturers in this great industry can be depended upon to supply the trade in the post-war era with machines that have novel and new ideas. Players' interest will be kept at a high peak for years to come.

"The operator is not going to suffer a large loss on his old equipment. He will gradually replace his old machines with new ones over a period of time."

VINCE SHAY IS PRES. OF MILLS

Vincent C. Shay

CHICAGO — An old-timer in the coin machine field (23 years) Vincent C. "Vince" Shay has been elected President of the newly formed Mills Novelty Company.

His name and fame spread from small towns to big cities early in his career, and if an operator had a problem he took it for granted that a letter to Vince would bring the answer to his problem.

This newly organized Mills Novelty Company will formulate, build and sell all types of amusement, Bell and Vender machines.

Assisting Vince in his new enterprise are Arthur V. Cooley, Vice President; John P. Ryan, Treasurer; Elmer E. Jacobson, Secretary; P. A. Tennis, Assistant Treasurer. All of these men are well acquainted with the coin machine field.

"MAKE A FRIEND"

C. E. Vetterick

CHICAGO — C. E. Vetterick, Promotional Director of O. D. Jennings & Company, reported.

"It's pleasant to think about the future of the coin machine industry — the magic to be performed when coins drop into scintillating new creations — the jobs we will provide for G. I. Joes and Blue Jackets—the new 'lift' we will give to the whole economic picture — and the sheer joy of living when we are again free to do the things we like.

"Speculation and fantasy cannot bring that glad tomorrow nearer, but there is something all (Continued on next page)

BALLY WILL BE READY

Ray T. Moloney

CHICAGO — Ray T. Moloney, President of Bally Manufacturing Co., this city, issued the following statement.

"As far as post-war production is concerned, our biggest job at the 'Bally' plant is to speed up the arrival of the post-war period—by pushing war production harder than ever. If by keeping our nose to the war grindstone, we here at 'Bally' can shorten the war by just one minute and thereby bring just one more American fighter home safe and sound — well that is what we want to do and will do until final victory.

"However, I can assure you that 'Bally' will not be asleep at the switch when the okay comes through for coin-machine production. The tremendously efficient methods we have developed in the production of war material will enable us to convert back to peace-time production in double-quick time. During the war, high-precision production has become an everyday matter for our engineers and production men, which means 'Bally' quality — ruggedness and trouble-free operation — will be at higher standard than ever.

"Our engineers have also salted away some really knock-out ideas for games—ideas which have developed out of our experience in war production. Those ideas will blossom out quickly as 'Bally' hits of tomorrow, after victory is won.

"I am not going to stick my neck out as to how soon after victory 'Bally' games will be rolling off the assembly line. After all, that will depend a lot on the situation in respect to governmental regulations. But I'll guarantee that new 'Bally' games will be on location a lot faster than anyone would think was possible. And another thing the trade can count on. Just as the 'Bally' plant now boasts the Army-Navy 'E' for Excellence, every 'Bally' game will carry a great big 'E' for Earning Power."

"Talking Out Loud" Page Two

"LET'S TAKE STOCK"

Burnhart Glassgold

HAVERHILL, MASS. — Burnhart Glassgold, Sales Manager for Arthur H. DuGrenier, Inc., this city, issued the following.

"What happens when the sirens blow, the bells ring and the cheering crowds hail a hard-fought victory? That's the day the automatic merchandising industry takes on the task of marshalling its faculties for the next job to be done. The entire industry has acquired, thru these last few wartime years especially, a new character, a new value to the American Way of life.

"This comparatively young industry has in a few years justified its existence, proven its adaptability and its "stick-to-it-iveness". That ability to contribute in a most outstanding manner to the efforts of war by services rendered on the part of the operator and manufacturing organizations, in spite of the most adverse conditions, truly builds character in an industry.

"The recognition on the part of the consuming public of the services rendered by the operators under these most adverse conditions, particularly within the past three years, will open new avenues for better public relations and, so in turn, greater business volume.

"Government and the general public will also be mindful of the job that was done by the manufacturing companies in the industry.

"The transition from doing business under war restrictions to "business as usual" may well be as trying as many present problems.

"At first blush it would seem that immediately after the war we will be in the era of wizardry. But wait! Not quite so fast! All healthy transition periods take a little time. The revolutionary things coming out of the ingenious brains and experimental departments must be given the time to attain honest development, adaptability, and acceptance. Don't look for the impossible tomorrow. It will come, but it takes a little longer.

"The competition will look keener; the desire to put houses in order and forge ahead will appear almost uncontrollable, but, we can all look with confidence to the increasing efforts of good guidance and good judgment by those who always lead the way — the progressive operators and manufacturers!"

"MAKE A FRIEND"

(Continued)

of us can do every day to create and maintain improved public opinion toward our industry.

"In our own communities each one of us represents the coin machine industry. Everything we do and say has a direct bearing on our own future and the future of our industry.

"What we do and say causes others to form opinions about each of us and about our industry.

"In the coin machine industry, more than in any other, public

POST-WAR FUTURE

Wm. Rabkin

NEW YORK — Wm. Rabkin, President of International Mutoscope Corp., this city, issued the following statement.

"I, with every other manufacturer connected with our industry am very optimistic regarding the post-war future of legal coin operated machines.

"We are all planning and hoping for a long period of prosperity after the war. Of course, there will be a short period of waiting while war plants are reconverted to civilian production, but after this lull, things will really start moving along.

"Operators and distributors should realize that it will take more than merely the snapping of a finger for our industry to reconvert and gain production momentum so that at least part of the tremendous demand for equipment can be filled. They should lay their post-war plans accordingly.

"Used and reconditioned machines will still have to bear the burden of maintaining the operator for a long period after the war is finally won and we manufacturers get back into civilian harness.

"Speaking for Mutoscope I can assure our many friends in the industry that we will be right out in front with the best constructed equipment in line with Mutoscope tradition. New methods of production developed during the war will stand us in good stead during Post-War manufacturing.

"Until that day of days we are all fighting for let none of us take our shoulders off the wheel. Keep fighting. Keep producing. Buy Bonds."

WE'RE SORRY

EXPRESSIONS FROM MANY OTHERS REGARDING THE POST-WAR FUTURE OF THE COIN OPERATED MACHINES INDUSTRY ARRIVED TOO LATE TO APPEAR IN THIS ISSUE. THESE OTHERS WILL BE FEATURED AT A LATER DATE.

relations should begin right in our own home town.

"Be a right guy in your own home town. There is always work to be done by public-spirited, community-loving men. Be one of these! You might have to coax yourself along a bit at first, but very soon you will learn that it yields a double return: satisfaction in helping others — and good will toward you and your business.

"It is easy to make friends and it is essential that you do. When you make a new friend, our industry also wins a new friend.

"And every time you make an enemy, you make an enemy for all of us."

COLUMBUS COINMEN HALT PINBALL LICENSING

Obtain Court Order Restraining City From Licensing Pinballs And Arcades. May Open Path To Low License Fees.

COLUMBUS, O. — Weeks ago The Cash Box reported that this city was framing its first license bill for coin machines.

At that time leading coinmen were called in by authorities and asked to help frame this bill. They met with the city council, and after much discussion and study, arranged a bill which they believed would meet with complete approval of all concerned.

Instead of the bill appearing as per suggestions made by coinmen, it appeared in an entirely different form, adding greater fees and also occupational taxation. Attorneys for Columbus coinmen contacted The Cash Box and suggestions were made as to changes.

"Columbus Legal Amusement Association," a new organization just formed by 12 firms here to combat this license bill, which it is believed will wipe out arcades and also close down many amusement machines, has come into being. This organization has just obtained a temporary court order restraining the city from licensing pinballs.

The suit is against the City of Columbus, Mayor Rhodes, Safety Director C. C. Cole and Police Chief Lester Merica, charges that this license is not a license but a "tax", and for this reason the city has exceeded its authority.

So far only 5 licenses have been filed with the License Commissioner. No arcades have applied for licenses. (653 phonographs have been licensed at \$10 per year.)

Progress of this case, which is of great interest to all in this industry, will be reported as rapidly as possible.

It is believed that this sort of restraining order may have good effect in other communities where licenses are no longer licenses but definitely "taxes."

CLUB SLOTS LEGAL IN IDA.

BOISE, IDA. — Use of slot machines in private clubs have just been legalized here. This bill was being watched by coinmen all over the country and there is now belief that it will help in other states.

The bill to legalize free play pin games has passed the house and coinmen here are of the opinion that it will also pass the senate.

Pari-mutuel betting was also legalized by this session of the state legislature.

FLORIDA MAY CLOSE

MIAMI — Rumors are rife thru-out the trade here that a drive is getting under way to close down all amusements. Coinmen believe this in keeping with end of season.

VICTOR AND COLUMBIA INVESTIGATE DISTRIBS

NEW YORK — Just as we were going to press letters and phone calls arrived from RCA-Victor, Camden, N. J., and also from Columbia Recording Corp., Bridgeport, Conn.

Both firms report that they are now arranging for a complete investigation of their present distributor set-ups and are checking to learn whether fair and equitable distribution of records is being made available to the coin machine music operator.

Columbia investigated in the case of Frederick Popolos of Waterville, Me., returned soldier, whose complaint was published in The Cash Box some weeks ago and have arranged with their distributor in Portland, Me., for better service.

Columbia is also making it their business to see to it that the coin operated music machines man will get fair and equitable distribution of their records from all their distributors.

Paul Southard, Vice-President of Columbia also reports that more records will become available on the opening of their new plant at King Mills, Ohio. At the present time, he reports, production of Columbia and Okeh records is about one-fifth of the demand.

RCA-Victor are going even deeper into this matter. They reported to The Cash Box that within a very short time they would be able to make public a statement to the coin machines trade which would cover all the complaints which have been received.

Their investigation will be unusually thorough and they strongly intend to cure any inequitable distribution.

Within a few days The Cash Box will have further reports and will be happy to publish these for the benefit of all the music machines men.

It now seems that the campaign started to get equitable record distribution is proving effective. The trade is assured of closer cooperation from the leading record manufacturers.

Odd Coins

By Joe Orleck

A 1945 Copyrighted Feature of: The Cash Box, 381 Fourth Avenue, New York (16)

Coinmen look forward towards the coming spring and summer with a great deal more optimism than for many years. With the European phase of the war drawing to its conclusion (predictions from high officials claim the end might come this summer) many of the present restrictions will be withdrawn. Manufacturers and distributors are making their plans at this time and this issue contains many statements that should be read carefully. In addition, the issue offers plenty of opportunity for buying and selling equipment that is needed at this moment.

TED BUSH and KEN WILLIS, Bush Distributing Co., Minneapolis, Minn. rebuilding trays for Wurlitzer counter model phonos, supervised by HAROLD HARTER, formerly Wurlitzer district factory service manager....CARL TRIPPE, Ideal Novelty Co., St. Louis, Mo. offers plenty of arcade equip. and slots...IZ ALPERT, Twin Ports Sales Co., Duluth, Minn. selling slots, consoles and 1-balls...JACK LOVELADY, Lovelady Music Machine Co., Ball Ground, Ga. runs a sale of arcade equip., slots, consoles, and music...MILTY GREEN, American Vending Co., Miami Beach, Fla. offers music, pins and consoles...GEORGE LEFEBVRE, Lachute, Canada wants pins, scales, slots and salesboards.

THE CONFIDENTIAL PRICE LISTS

AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY ISSUED EVERY WEEK BY: THE CASH BOX, 381 FOURTH AVENUE, NEW YORK 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS
7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS
8. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading the past week.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.

A NEW HIGH IN PRECISION

Operators and distributors know that the Jennings trade-mark has stood for uncompromising quality for more than 38 years. Proof that Jennings CHIEFS are the finest jackpot machines ever built is revealed by the severest test of all—the relentless pounding which Chiefs have successfully withstood, day in and day out on location, since before the war

After the war larger and better equipped production facilities, along with increased technical skill and knowledge, all resulting from three years of honored war production, will be reflected in still finer Jennings products. The Army-Navy "E" symbolizes a new high in precision at Jennings, enabling us to pledge a new high in opportunity for coin machine operators and distributors.

What YOU can do right now! If you have not received the new Jennings Chief Service Manual, your name may not be on our mailing list. Act right now to make sure you receive ALL Jennings mailings. Send your name, address and tell us what you now operate or sell.

SUPREME ENTERPRISES

557 ROGERS AVENUE

BROOKLYN 25, N. Y.

MR. MANUFACTURER

...in your Post-War plans consider the following facts —

WE are located in the geographical center of the State of Georgia.

We are located in a City that is liberal minded in its thinking regarding this industry. This is mainly due to its high type operators. Men who through the years have won enviable reputations for square dealing. Men who belong to all the leading civic organizations, and who always cooperate in all drives for the betterment of this city.

No — this town is not "open". But, its operators are respected as worthy citizens. We state these above facts because they are the main reasons why we located in Macon.

We can stock any type of equipment on our floor at all times. Coin machine distributors are licensed by the city.

At present we are doing a very nice business. We are employing nine people who are engaged full time in our work. We are buying, trading and selling coin machines only. No operating from this office. We have 12,000 square feet of floor space in our two story brick building which is located in the downtown area.

We have been in the operating end of this industry

for over ten years. For the past two years we have been engaged in selling coin machines.

We like the coin machines business and believe in its future. The average age of the officers of this firm is around the thirty year mark. We are ambitious and not afraid of hard work. We have acquired a reputation for good business dealing because we guarantee complete satisfaction with every transaction we make.

Our customers are numerous. We have made lots of personal contacts and continue to travel as much as we possibly can over the entire state.

Therefore, Mr. Manufacturer, we invite you or your representative to pay us a visit. Look over our set-up. Talk to some of our customers concerning our business methods. We feel certain that you will convince yourself that we are the firm you need.

Remember, you are always welcome to visit with us in Macon. We'll serve you some of our famous Southern cooking: "Gawger" country ham; collard greens; candied yams, and maybe we'll even be able to introduce you to some of our Georgia peaches.

Give us a ring — and come on down South — to visit:

NOW AVAILABLE

A NATIONALLY ADVERTISED QUALITY

COLD QUARTZ

ULTRA VIOLET RAY LAMP

A real value. These lamps take up only a small amount of display room, yet they sell on sight. Display one in your window, put one on a counter where your customers can examine it and watch your sales climb.

SUN KRAFT COLD QUARTZ ULTRAVIOLET RAY LAMP

A departure from the conventional sun lamp. Uses an oscillator circuit and COLD type genuine Mercury Quartz Tube. Produces 95% ultraviolet rays and the quartz tube never burns out. Comes complete with goggles, built-in automatic timer and leatherette carrying case. Finished in Satin Chrome. Carries Manufacturer's Guarantee. O.P.A. approved retail price \$64.50. Every sale nets as much as \$25.80. Send for 3 of these lamps and cash in on a real fast moving item. Stocked for immediate shipment.

DEALER'S PRICE

\$43.00 ea. (lesser quantity)
\$38.70 ea. (lots of 3)

WE HAVE NO CURFEW!

Most every amusement business in the country has been affected by the recent curfew order from Washington. *That is, most everyone except ours!*

No, we are not breaking the law; we certainly are doing, and will continue to do, everything in our power to aid the war effort.

However, there is no curfew on our efforts in behalf of our customers. To give them the best equipment available — to dig it up for them — to recondition it perfectly — is a 24-hour per day job.

You can always bank on the equipment we deliver because there is no curfew on our service or quality!

CONGRATULATIONS!

THE WHITE STAR FOR CONTINUED MERITORIOUS SERVICE HAS BEEN AWARDED TO WATLING MEN AND WOMEN

Congratulations to Watling Men and Women! You have done it again! For the second time you have won the Army-Navy Production Award, thereby earning the White Star for our "E" flag, which was awarded to you and to our company a year ago. You have good cause to be proud of your achievement. We share your pride and express our sincere appreciation for your meritorious service in the production of materials needed by our Armed Forces and for your loyalty to our company.

D. GOTTLIEB & COMPANY, CHICAGO

"MIKE" SPECTOR

Mr. Manufacturer:

We offer you the finest facilities for the most complete and efficient distribution of your products in all the history of Eastern Pennsylvania.

Enumerated here are some of the features of our new building which is being acclaimed by all coin machines men who have already seen it, "The most beautiful distribution quarters in the coin machines industry".

We have two large and outstanding and modernistically lighted showrooms in which to feature your merchandise. Big warehouse space right in our own building. Inside loading of merchandise and automatic electric elevators to transport machines to any of our three floors. Two really huge repair departments and an additional emergency repair station on our main floor. A complete and beautiful taproom for the entertainment of our customers as well as for play of the new machines we will feature.

We fully believe that in the post-war period these are the sort of quarters you will want for your products. We only ask that you arrange to see them at your leisure or contact us for further information.

REPORT

1. The purpose of this report is to provide a comprehensive overview of the project's progress and results. The report is organized into several sections, each detailing a specific aspect of the project.

2. The first section, titled "Introduction", provides a brief overview of the project's goals and objectives. It also discusses the importance of the project and the role of the report in the overall project management process.

3. The second section, titled "Methodology", describes the methods and techniques used in the project. This section includes a detailed description of the data collection process, the analysis methods used, and the tools and software employed.

4. The third section, titled "Results", presents the findings of the project. This section includes a detailed description of the data collected, the analysis results, and the conclusions drawn from the data.

5. The fourth section, titled "Discussion", discusses the implications of the project's findings. It also provides a critical analysis of the project's strengths and weaknesses, and offers recommendations for future research and development.

6. The fifth section, titled "Conclusion", summarizes the project's findings and provides a final assessment of the project's overall success. It also includes a list of references and a bibliography.

7. The sixth section, titled "Appendix", contains supplementary information that supports the main text of the report. This section includes a list of figures and tables, a glossary of terms, and a list of abbreviations.

...SO PROUDLY WE HAIL

*Manufacturing cigarette and
candy merchandisers is a far
cry from the articles of war
we're making for Uncle Sam
now; but, we're proud to be
able to do our part toward
ultimate Victory.*

*We hope we've made the
DuGrenier men and women
in the Service the world over
proud of the Army and Navy
"E" Flag that flies above
their plant.*

Arthur H. DuGRENIER, Inc.
15 Hale Street Haverhill, Mass.

PHONOGRAPH OPERATORS-NOTICE!

NEW POLICY ON OUR UNIVERSAL AMPLIFIER IDEA

Due to W.P.B. regulations we are in a position to accomodate you in the following manner: Ship us a coin operated phonograph amplifier (charges prepaid) regardless of make and we will renovate and alter it for Universal use. COST \$36.50 F.O.B., N.Y. and includes minor repairs. However, if major parts are missing or defective and have to be replaced, an additional nominal charge will be made.

WHAT A UNIVERSAL AMPLIFIER WILL DO FOR YOU

Saves you time, money and expense. When you have an Amplifier service call, replace with your Universal, your machine keeps working and your customer is satisfied. Complete renovation with sockets, for speakers and pickups for all the following models:

ALL WURLITZER MODELS 616, 24, 500, 600, 700, 750, 780, 800, 850 and 950

Bally

IN WAR

Thrice honored for excellence in war production, the Bally organization is working unceasingly to increase the flow of vital war matériel to our fighting forces. And Bally will continue to "deliver the goods" until victory is won.

IN PEACE

Bally's pre-war history and present war production record are an indication of what you can expect from Bally when peace comes. In the future, as in the past, you can "bank on Bally" for the newest in money-making games and vendors.
